Remove the "Go to First Error" Link on a Single Page

Looking to remove the "Go to first error" link? You can do so with a little JavaScript on the page.

1. To do so, click to Add New Action at the bottom of each page and select **JavaScript**.
2. Give your action a description that is meaningful. Copy and paste the below JavaScript code and **Save Action**.

```
$(document).ready(function() {
$.sg-error-message a").hide();
})
```

▲ There was an error on your page. Please correct any required fields and submit again. [Go to the first error](#)

▲ This question is required

Please rate your level of satisfaction with each of the below items. *

Please make sure to provide an answer to each row.

	Very Dissatisfied	Dissatisfied	Neutral	Satisfied	Very Satisfied
Customer Service	<input type="radio"/>				
Quality of Product	<input type="radio"/>				
Price of Product	<input type="radio"/>				

If you are instead looking to remove the entire message that contains the **Go to the first error** link, use the below script instead:

```
$(function() {
$.sg-error-display").hide();
});
```

Remove the "Go to First Error" Link on Every Page

If you want to remove the **Go to the first error** link from every page on your survey, you can do so by adding a piece of CSS code on your survey's **Style** tab.

1. Navigate to your survey's **Style** tab.
2. Scroll to the bottom of the page and access the **HTML/CSS Editor**.
3. Within the HTML/CSS Editor, on the **Custom CSS** tab, paste the below piece of CSS code. Make sure to **Save Changes**.

```
a[href^="#sg-gotoerror"] {  
  display: none;  
}
```
