

Answer Option Special Settings: Not Applicable, None/All of the Above

Providing survey respondents with the ability to opt out of a question when it does not apply to them will eliminate bias in your data. Using our Special Settings, you can set up answer options such as "None of the above" or "Not applicable" so that other options cannot be selected in tandem. Other Special Settings allow you to collect other, please specify info, fix the position of an option when randomizing, and more!

1. What is your favorite color?

- red
- yellow
- green
- none of the above

Special Settings Example: None of the Above

Available Special Settings

All answer options with special settings will automatically stay at the bottom of the list of options unless you select Fixed and move it to the desired location. This is true even with randomization enabled.

Other/Other - Required

- This special setting adds an "Other - Write In" textbox field to an answer option. There is also the option to require this option.
- Compatible Question Types:
 - [Radio Buttons](#)
 - [Checkboxes](#)

Not Applicable

- Answer options set to Not Applicable are exclusive and can be removed from Standard Reports
- Compatible Question Types:
 - [Radio Buttons](#)

- [Radio Button Grids](#)
- [Checkboxes](#)
- [Checkbox Grids](#)
- [Rating \(Likert Scale\)](#)

Exclusive/None of the above

- Answer options with this special setting cannot be selected with any other answer option
- Compatible Question Types:
 - [Checkboxes](#)

All of the above

- Create an "All of the above" answer option and select this special setting so survey takers can mark all options in one click
- Compatible Question Types:
 - [Checkboxes](#)

Fixed

- Setting an answer option as fixed fixes its location (use in combination with Randomize Answers, Randomize Row Order and Randomize Columns found in the Answers section of the question editor)
- Compatible Question Types:
 - [Radio Buttons](#)
 - [Checkboxes](#)
 - [Textbox List](#)
 - [Dropdown Menu](#)
 - [Rating \(Likert Scale\)](#)
 - [Drag & Drop Ranking](#)
 - [Ranking Grid](#)
 - [Continuous Sum](#)
 - Rows and columns in Grid questions (including [Radio Button Grids](#) , [Checkbox Grids](#) , [Dropdown Menu Grids](#) and [Textbox Grids](#))
- If you are [piping](#) answer options into a question that contains existing answer options, such as Not Applicable, use the fixed setting on the existing answer to make sure that the piped items appear above the existing answer option.

- Note: If you are **pipng** options into column headers of a grid question and the columns are set to be **randomized**, the **Fixed** Special Setting for the columns is not compatible.

Checked By Default

- Answer options set to be checked will display as selected when survey takers first land on the question
- Compatible Question Types:
 - [Checkboxes](#)

Setup

1. Edit your question and click the pencil icon next to the answer option.

The screenshot shows the 'Multiple Choice Options' interface. It features a list of options in text input fields: 'Documentation (Company's Documentation Site)', 'Community (Conversations with other users)', 'Search Engine (e.g. Google, Bing, Yahoo)', 'Chat', 'Email', 'Phone', 'Colleagues', 'Other', 'None, I just keep clicking around until I figure it out', and 'None, I switch to use a different program'. To the right of each option is a set of icons: a pencil (edit), a vertical bar (toggle), and a trash can (delete). A red arrow points to the pencil icon next to the 'Other' option. Below the list is a '+ Click to Add Option' button and a text input field containing 'Add "Other", "N/A", etc.' with a 'Paste in Options' button. On the right side, there are tabs for 'Common Answer Library' and 'Advanced Option Settings', and a 'Getting Started Guide' pop-up window with instructions on using Radio Buttons and Checkboxes.

2. Select the special setting you would like to apply from the **Special Settings** dropdown.

Option Title
Other

Reporting Value
Other

Special Settings
 ✓ ...
 Other - Write In
 Other - Write In (Required)
 Not applicable

Fixed and **Checked** also display under answer option settings accessed via the pencil icon for each answer option. For row headers (grid questions), *fixed* will display in the same location.

For **Radio Button Grids** or **Checkbox Grids**, click the pencil icon to access the special settings for Column Headers.

3. Once you have made your selection, make sure to click the **Done** button in the bottom-right.

FAQ

How will answer options be ordered when using multiple special settings in a single answer list?

If you are using multiple special settings in a given answer list, the answers will be ordered in whatever order you place them.

What about answer option randomization? Will answer options with special settings be randomized?

Yes, answer options with special settings will be randomized. You can use the fixed setting in addition to other special settings in order to prevent an option from being randomized.

Are there special settings available for Dropdown Menus?

Unfortunately, special settings cannot be applied to Dropdown Menu questions. Fortunately, the Dropdown Menu can be switched out for a Radio Button question

if you wish to use special settings. If you're looking to add an other textbox to a dropdown menu check our this [workaround](#) .
