

Set Up a Question to Allow Multiple Answers

Are you looking to set up your question to allow respondents to select *multiple answers*?

The checkbox question type is the best option for this scenario. It will allow your survey respondents to select multiple answers from a list. [Learn more about the checkbox question type!](#)

If you are looking to allow multiple answers per row in a table, use the [Checkbox Grid](#) Question Type.

Allow Multiple Open-Text Answers

If you are looking to collect multiple open-ended answers there are several options available to meet your needs:

Textbox List

A [Textbox List](#) question is a list of short-answer, open-text fields with labels for each row.

1. What is your favorite movie in the following genres?

Drama	<input type="text"/>
Comedy	<input type="text"/>
Foreign	<input type="text"/>
Western	<input type="text"/>
