1 of 13

## Add Pages to Your Survey

New SurveyGizmo surveys will always start with two pages, an initial page, called Page 1, and a Thank You Page. You can add as many questions to a survey page as you wish. You can also add pages by clicking **Add Page** between any two pages in your survey.

#### 3 of 13

## Add a Question

Next, start adding questions for your survey respondents by clicking **Question** at the bottom of the page or between any two existing questions.

# Select Your Question Type

Upon creation, questions will default to the Radio Buttons question type. This commonly-used question allows respondents to select a single choice from a list. Selecting the right question type can be tricky because this is the key to getting the data you need. Never fear, though; we're here to help!

## Need more help selecting a question type?

We've built in a Question Types Cheatsheet to help you make a decision right inside the application. Scroll to the bottom of the question types dropdown menu and click the **Question Types Cheat sheet** link to view and interact with example questions.
