

# How do I turn off confirmation emails?

Looking to turn off or make changes to your confirmation emails?

You can stop them from sending by disabling the action. Simply click **Edit** and go to the **Logic** tab. Select **Yes** under **Disable Action**.

The screenshot shows a configuration interface with three tabs: PRIMARY SETUP, LOGIC, and ADVANCED. The LOGIC tab is active. Under the heading "Logic Rule", there is a checkbox labeled "Only show this action based on answers to previous questions or other logic conditions". Below that is the heading "Advanced 'Send When' Rule" with a link "Click for Advanced 'Send When' Rule". The "Disable Action" section is highlighted with a red arrow pointing to the "Yes" radio button, which is selected. The "No" radio button is unselected.
