

# Turn Off Question Numbers

To turn-off/remove question numbers go to **Style > Text > Text Options** and uncheck the option to **Show Question Numbers**. This will turn off question numbers in your live survey link.

*The Build tab will always show question numbers regardless of whether question numbering is turned off in the Style tab. To double-check your number is turned off, take a quick peek at Preview, Style, or the live survey link!*

Check out other options in our [Question Numbering Customizations Tutorial](#) !
