- [Spiderweb Chart](#)

Available Options for Stacked Vertical Bar Charts

There are a number of options available for a stacked vertical bar chart.

Filter

First, if you wish to filter the data that displays for an individual stacked vertical bar chart, click **Filter** to the right of the element and use the logic builder. Learn more about [filtering an individual element](#) .

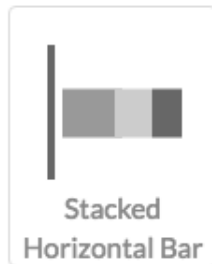

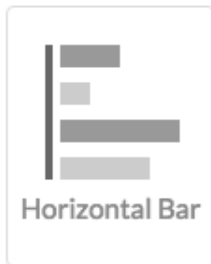

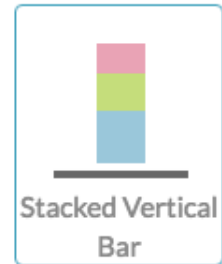

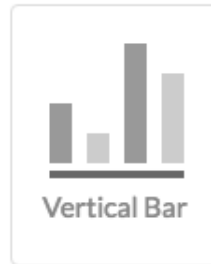

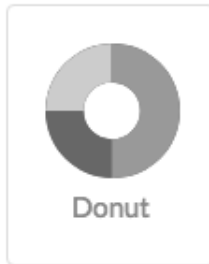

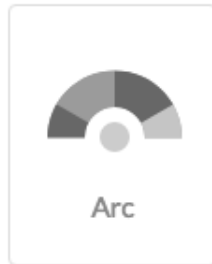

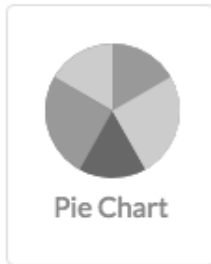

- If you wish to display the specific details of your filters below your chart check the **Show Details of Filter with Report Element** checkbox below the logic builder.
- You will also see an option to filter this element by **Survey Link or Campaign**. This filter option will allow you to only include data in this element that was collected via a specific link (or links).

The screenshot shows the 'Edit Report Element' interface with the 'Filter' tab selected. The interface includes a 'Remove All Logic' link, a logic builder with a dropdown menu showing '--Select a condition--', a condition 'is exactly equal', and an empty input field. Below the logic builder are '+ Add Condition' and '+ Add Group' buttons. A checkbox labeled 'Show Details of Filter with Report Element' is checked. At the bottom, there is a button labeled 'Filter by Survey Link or Campaign'.

Chart Type Tab

If you want to explore other compatible chart types, click **Chart Type** to the right of the element and select a different chart type from the available options.

Overall (Aggregate) Charts

Layout & Options Tab

To explore even more options, review the settings available within the **Layout & Options** section.

Question Options

- **Chart** - Include or exclude the main chart.
- **Summary Table** - This is the table below the chart that includes the value, percent and count.
- **Statistics** - See below list of available statistics for this chart type.

Answer Options

- **N/A Options** - Include or exclude options set as not applicable.
- **Disabled Options** - If you have disabled certain options on the Build tab, you can still display those in the report by checking this item.
- **Answer Options with No Data** - If you have answer options with no data that you wish to include in the chart, click this option.
- **Answer Option Names** - By default, the Original Option Title displayed to survey respondents will display in your report. Toggle to [Reporting Value](#) if you wish to display this instead.

- **Answer Grouping/Top and Bottom Box** - Group your answer options for reporting purposes. Visit the [Top Box Reporting article](#) to learn more.
- **Order Answers By** - Select how you would like the answer options to be ordered; either by Original answer order, Number of responses, or Alphabetically by answer title.

Chart Options

- **Chart Size** - You can adjust the chart size small, medium, or large.
- **Axis Values** - Elect to display **Option Counts** rather than the default **Option Percents** for your axis values.

Available Statistics

- Total Responses
- Hidden Count
- Skipped Count

If [reporting values](#) are numeric the below statistics are available.

- Sum
- Average
- Min
- Max
- Standard Deviation
