## Default Questions

- [Contact Form](#)

## Available Options for the Contact Card Reporting Element

If you wish to filter the data that displays for the Contact Card element, click the **Filter** option to the right of the Contact Cards element and use the logic builder. Learn more about [filtering an individual element](#) .

If you wish to display the specific details of your filters below your chart, check the **Show Details of Filter with Report Element** checkbox below the logic builder.

The screenshot shows the 'Edit Report Element' interface. At the top, there is a purple header with the title 'Edit Report Element' and two tabs: 'CHART TYPE' and 'FILTER'. Below the header, there is a 'Remove All Logic' link. The main area contains a filter configuration bar with a dropdown menu showing '--Select a condition--', a comparison operator 'is exactly equal', and an empty input field. Below this bar are two buttons: '+ Add Condition' and '+ Add Group'. At the bottom, there is a checked checkbox labeled 'Show Details of Filter with Report Element' with a yellow arrow pointing to it from the right.

## Sharing a Report with Contact Cards:

Personally Identifiable Information (PII) (like email addresses or contact forms) is automatically excluded from publicly shared reports unless they are password protected. [Learn more about your report sharing options when using a Contact Form question](#) .
