

How do I know what license/plan I have?

In SurveyGizmo your license type determines the features you have access to in the application.

Not sure what license or plan you have? Go to **Account > Summary > My Preferences** your plan or license will be listed in the **License/Plan Type** field.

The screenshot shows the 'My Preferences' section of the SurveyGizmo user interface. It includes fields for Name (Jane Adams), Email (jane.adams@company.net), and a Password section with a 'Reset Password' button. The 'License Type' field is highlighted with a red box and displays 'Full Access License'. Below it, the 'Application Theme' section has a radio button for 'Account Default' and a note: 'Use the theme that the entire account is set to (Modern Theme)'.

As you use our [help documentation](#) in the right-hand panel of each article the **Available on these Plans & Licenses** widget will list the licenses in which the feature is available. If you accessed the help from within the application, we'll display your license for reference. If not, simply hop over to **Account > Summary > My Preferences** to confirm your plan/license.

How do I change my plan and license?

If you find yourself needing more features, you can always [upgrade your](#)

[SurveyGizmo Plan or License.](#)

What is an add on?

There are several auxiliary features within SurveyGizmo that need to be purchased separately; we refer to these features as add ons. Below is a list of add on features.

[Contact sales](#) in order to access these features.

- [Additional Administrative Users](#)
